

eat2eat celebrates its 20th anniversary.

eat2eat, the pioneering dining reservation site, celebrates 20 years as the largest independent dining technology provider to the hospitality industry, globally.

As the first company to offer real time dining reservations in APAC (have a look at our launch website from 2001 – it's a long time ago but clearly trend setting! <https://web.archive.org/web/20010925062940/http://www.eat2eat.com/>) the company has continued to push the envelope in offering restaurants real choice in their selection of service providers to manage their dining operations. We are now in 35 countries and over 180 cities.

Our Founder and CEO Vikram Aggarwal - 'We are so proud of this accomplishment. Historic data on tech companies that launched in 2000 indicate that less than 1% survived as a going concern beyond 5 years. It's a testament to our wonderful team, our customers and our partners that we can celebrate this significant milestone together. I would also like to personally recognize the unstinting support of our investors, without whom we would not have had the opportunity to achieve these milestones.

It would have been wonderful to have had the opportunity to celebrate in person. Perhaps, once this pandemic that is decimating our industry is well and truly over, we will be able to party in style.'

For more information on how you may join our community and enjoy significant savings during these unprecedented times, please visit us at www.eat2eat.com or drop us a note - contact@eat2eat.com.
